

Frequently Asked Questions

What is registry reporting and is it for me?

What is a QPP registry?

A registry, such as Patient360, is simply a mechanism of reporting QPP data. Here are some tips to determine if you should report via registry.

Is my practice able to report via registry?

If you are an APM, you will not file via registry.

If you are an ACO, you will not file via registry.

Eligible Providers can choose to report via registry mechanism. Learn about your eligibility by reading the MIPS Participation Fact Sheet.

Why should my practice choose to report via registry?

If you have determined that you are eligible by reviewing the above requirements, here are the reasons you SHOULD report via registry:

- ✓ Access to more measures than any other mechanism of reporting (web interface, EHR, submissions, claims). Patient360 has access to over 240 measures PLUS 7 of our specialized QCDR measures.
- ✓ Real time feedback on performance via analytic tools AND P360 dashboard
- ✓ Participate in national benchmarking performance calculation and feedback. This can be used to help improve your quality of care, avoid negative payment adjustment, and be eligible for BONUS.

How do I pay for my subscription?

M4B (MIPS for Beginners and MIPS QCDR for Beginners):

- *Completely automated!* Check out our M4B Programs

Regular MIPS participants and QCDR:

- Contact sales@patient360.com to begin the process with easy to use electronic signature and payment platform. Credit card and ACH payments accepted.

How can I submit my data to Patient360?

Any of these 3 EASY options!

- ✓ Enter directly into P360 portal
- ✓ Upload templates and/or use combination of P360's API
- ✓ Data integration via CCDA, HL7, and QRDAIII files available upon request and based on your EMR system and accessibility

Can I get help to understand the program?

Yes! Below are a few helpful resources to get you started:

- Read more here: www.qpp.cms.gov
- Attend one of our Lunch & Learn sessions
- Read our blogs at patient360.com/blog

Do you offer specialized advice for my clinic?

If you are looking for specialized one on one consultation, please contact sales@patient360.com and our staff will provide you with our consultation contract, rates and policies.

If you are a contracted Patient360 client, please refer to your contract for consultative rates and policies.

Available Measures Per Reporting Mechanism
